

Corporate Social Responsibility Statement

Quelltex Ltd take a wider view of the success of the business than the bank balance. The director of the company and staff, regularly attend voluntary events within the local community (beach cleaning with Beach Buddies a Manx charity) and volunteering for food bank delivery duties.

Annual staff bonuses are reflected in annual charitable contributions, within the last 12 months Quelltex has made financial contributions to: DEC, WWF and MS Society. Any extra ordinary global event will also result in an additional contribution, likely to DEC (such as recent a famine crisis). The business is successful only if all of those working with it are successful. Any increase in pay increases are awarded similarly to all of the team regardless of their role.

Ethical Supply Chain Statement

Quelltex Ltd spends a large sum on services and consumables, ranging from travel to office stationary. Quelltex Ltd, do as much as possible to eliminate waste, reuse everything where possible and recycle the remaining. As such, we look for the same commitment from our Suppliers too. We consciously check each suppliers policies on energy conservation and recycling materials etc. Where it is found that a supplier's conduct is not in accordance with Quelltex Ltd's responsible purchasing policies, we will seek an alternative supplier.
